1 Introduction

The intention of this document is to give an overview of the organisations that are part of the EasyGo operation, use the EasyGo infrastructure or have roles related to the support of the EasyGo infrastructure and services. These are:

- **General Parties**
The General Parties of EasyGo consist of Toll Chargers (TC) which have signed the Joint Venture Agreement (JVA) and are represented in the EasyGo steering committee.
- **Limited Parties**
A Limited Party is a TC that has signed an adhesion agreement to the EasyGo JVA instead of the JVA itself. A limited party is not represented in the EasyGo steering committee.
- **Toll Service Providers**
EasyGo Toll Service Providers (TSP) have signed the Toll Service Provider Agreement (TSPA) and their contracts / OBEs are accepted by all EasyGo TCs, including General parties and Limited parties.
- **External Toll Chargers**
External TCs are TCs which have an agreement with one or more EasyGo TSPs and exchange data with the TSP(s) via the EasyGo hub. They are not part of the EasyGo service and have neither signed the JVA nor the adhesion agreement.
- **External Toll Service Providers:**
External TSPs are TSPs which have an agreement with one or more EasyGo TCs and exchange data with the TC(s) via the EasyGo hub. They are not part of the EasyGo service and have not signed the TSPA.
- **Others**
Other organisations which have a role in the EasyGo operation or support the EasyGo infrastructure and services

Each of these groups of organisations are listed in the following chapters. The relations between these groups are illustrated below.
